

Please post this announcement for 2-3 Biological Science Technician jobs:

The US Geological Survey Canyonlands Field Station, Moab, Utah is taking applications for at least two technicians to work in the field and lab on an arthropod project in Utah. These are GS-04 positions, based in Moab, Utah, and may last up to two years. Applicants should meet all the basic requirements for GS-04 level, and in particular should have experience in collecting and identifying insects and other terrestrial (mostly) and aquatic arthropods. You can view the full job announcement at <http://jobs.utah.gov/jobseeker/> register and look for job id# 8308318. If you have questions, please contact Tim Graham at 435-719-2339 or [tim\\_graham@usgs.gov](mailto:tim_graham@usgs.gov).
